1. GENERAL

1.1 Introduction:

This form is for the purposes of facilitating an application for the Amendment of a clerical or technical nature to a Waste Facility Permit under Article 26 of the Waste Management (Facility Permit and Registration) Regulations S.I No. 821 of 2007 and the Waste Management (Facility Permit and Registration) Amendment Regulations S.I No. 86 of 2008 (hereafter referred to as the Regulations).

The application form is available to download from the **Tipperary County Council website** www.tipperarycoco.ie/environment

1.2 Guidance on the Application Form:

- All sections in this application form may not be relevant to every application, activity or amendment. However, the applicant should look carefully through the complete form and provide all relevant information. If any question is considered 'not applicable' this should be stated in full. The use of the abbreviations (e.g., N.A. or dash) should be avoided.
- Additional attachments may be included to supply any further information supporting the application. Attachments should be clearly numbered, titled and paginated and must contain the required information as set out in the application form.
- Consistent measurement units must be used throughout the application form.

1.3 Amendment of a Waste Facility Permit:

A local authority may amend a Waste Facility Permit for the purposes of:

- (a) correcting any clerical error therein,
- (b) facilitating the doing of any thing pursuant to a condition attached to the waste facility permit where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the permit taken as a whole but which was not expressly provided for in the condition,
- (c) updating the conditions attached to the waste facility permit to take account of scientific or technological progress,
- (d) facilitating the application of new, or the amending of existing procedures and conditions to the waste facility permit which are necessary for the operation of the facility in accordance with new or revised requirements, including any such conditions as are deemed necessary by the local authority, to facilitate compliance by the permit holder with any minimum technical requirements that may be established, or amended, arising from the introduction of new, or amendments to existing Community acts, or
- (e) otherwise facilitating the operation of the waste facility permit.

The making of an application to amend a Waste Facility Permit, shall in no way affect or diminish such conditions, requirements or obligations applying to or falling on the permit holder as are specified in or arise under the Waste Facility Permit.

1.4 Additional Information and Conditions:

A local authority shall ensure that the making of any amendment to a Waste Facility Permit does not result in the relevant requirements of sub-article 18(4) ceasing to be satisfied, namely:

- the activity concerned when carried on in accordance with such conditions as are attached to the Waste Facility Permit, will not cause environmental pollution,
- any emissions from the activity concerned will not result in the contravention of any relevant standard, including any standard for an environmental medium, or any relevant emission limit value, prescribed under any enactment,
- best available techniques will be used to prevent or eliminate or, where that is not practicable, to limit, abate or reduce an emission from the activity concerned,
- the facility is compliant with planning or is exempt from planning permission under Section 5 of the Planning and Development Act 2000, and
- the applicant is a fit and proper person.

A Local Authority shall, where appropriate, consult with holder of the Waste Facility Permit before amending the permit.

In considering or agreeing to amend a Waste Facility Permit, as appropriate, a Local Authority may:

- seek further information from the applicant;
- attach conditions by way of amending the permit referred to in the application.
- where the amendment application identifies a material or significant change in: (i) the nature, focus or extent of the waste related activities; or (ii) the nature or extent of any emission concerned, an application for the review of a waste facility permit may be required before the proposed change can be assessed.

An application fee of €100 (as per Category 2. of the Fifth Schedule the Regulations) shall be submitted with the application.

NOTE: 5 of copies of all documentation to be submitted with application form.

1.5 About these Guidance Notes:

These guidance notes have been developed to assist applicants in the preparation of an application to amend a Waste Facility Permit.

This document does not purport to be and should not be considered a legal interpretation of the provisions and requirements of the Waste Management (Facility Permit and Registration) Regulations S.I No. 821 of 2007 and the Waste Management (Facility Permit and Registration) Amendment Regulations S.I No. 86 of 2008.
